Objective

Motivated and enthusiastic undergraduate student specializing in Artificial Intelligence and Machine Learning. Eager to apply technical knowledge and continue learning through hands-on projects and collaborative opportunities in the field of AI.

Education

Bachelor of Engineering – Artificial Intelligence & Machine Learning

Universal College of Engineering, Mumbai University

Expected Graduation: 2026

Current CGPA: 6.56 / 10 (Average of Sem 1–4)

HSC – Science Stream

Sardar Valabhai Patel of Junior College of Science & Commerce

Year of Passing: 2023

Percentage: 52.4%

SSC – Secondary School Certificate

ST.Aloysius English high School

Year of Passing: 2021

Percentage: 89.80%

Skills & Interests

Technical: HTML, CSS, JS, SQL, Python, Java, Machine Learning, Data Science.(Basic)

Language: English, Hindi, Marathi, Bengali.

Projects

College compliant management

Developed a college complaint resigtration platform using HTML, CSS, JavaScript, Python, and MySQL.It allows users to complaint about college, select variety, and confirm complaint through a user- friendly interface.

Experience

I am actively looking for internship opportunities where I can apply my knowledge and further develop my skills in web development and machine learning. As a motivated learner with practical experience working on various projects.

Certifications

Object-Oriented Programing in python:

Object-oriented programming (OOP) is a widely used programming paradigm that reduces development times—making it easier to read, reuse, and maintain your code.

Introduction to database in Python:

In this course, you'll learn the basics of using SQL with Python. This will be useful because databases are ubiquitous and data scientists, analysts, and engineers must interact with them constantly.

Writing efficient code in python:

As a Data Scientist, the majority of your time should be spent gleaning actionable insights from data -
- not waiting for your code to finish running
